

## **CRITICAL CARE STANDARDIZED CONTINUOUS INFUSIONS**

Medical personnel who prescribe I.V. drips with non-standard concentrations or diluents will be required to provide written justification on the patient's order sheet. An example of a complete order for a standard concentration drip is: "Dopamine 400mg / 250 ml D5W @ 10 mcg/kg/min". An example of a complete order for a non-standard concentration drip is: "Dopamine 800mg / 250 ml D5W @10 mcg/kg/min. Higher concentration necessary due to SIADH". (Use provider comment in CPRS.)

<b><u>Generic</u></b>	<b><u>( Trade )</u></b>	<b><u>Concentration &amp; Diluent</u></b>
Abciximab	( Reopro )	10 mg / 250 ml D5W
Aminocaproic acid	( Amicar )	5 gm / 50 ml NS
Atracurium	( Atracurium )	50 mg / 100 ml D5W (95ml initial volume)
Amiodarone	( Cordarone )	900 mg / 500 ml D5W
Bivalirudin	( Angiomax )	250 mg / 50 ml D5W
Cisatracurium	( Nimbex )	20 mg / 100 ml D5W
Dexmedetomidine HCl	( Precedex )	200 mcg / 50 ml 0.9% NaCl
Diltiazem	( Cardizem )	125 mg / 125 ml D5W (100 ml initial volume)
Dobutamine	( Dobutrex )	500 mg / 250 ml premixed
Dopamine	( Intropin )	400 mg / 250 ml premixed
Epinephrine	( Adrenalin )	2 mg / 250 ml D5W
Eptifibatide	( Integrilin )	75 mg / 100 ml premixed
Esmolol	( Brevibloc )	2.5 grams / 250 ml D5W premixed
Fosphenytoin	( Cerebyx )	1000 mg / 100 ml D5W
Furosemide	( Lasix )	250 mg / 250 ml 0.9% NaCl
Heparin Sodium	( Heparin )	25,000 units / 250 ml premixed
Hetastarch	( Hespan )	6% 500 ml premixed
Hetastarch w/electrolyte	( Hextend )	6% w/electrolyte 500 ml premixed
Insulin	( Regular )	100 units / 100 ml 0.9% NaCl
Isoproterenol	( Isuprel )	1 mg / 250 ml D5W (EP Lab use only)
Labetalol	( Trandate )	200 mg / 200 ml D5W (160 ml initial volume)
Lepirudin	( Refludan )	100 mg / 250 ml D5W
Lidocaine	( Xylocaine )	2 grams / 250 ml premixed
Milrinone	( Primacor )	20 mg / 100ml D5W (80ml initial volume)
Nicardipine	( Cardene )	25 mg / 250 ml D5W (240 ml initial volume)
Nitroglycerine	( NTG )	50 mg / 250 ml D5W premixed
Nitroprusside	( Nipride )	50 mg / 250 ml D5W
Norepinephrine	( Levophed )	4 mg / 250 ml D5W
Octreotide	( Sandostatin )	500 mcg / 250 ml D5W
Pantoprazole	( Protonix )	80 mg / 100 ml NS
Phenylephrine	( Neo-synephrine )	10 mg / 250 ml D5W
Procainamide	( Pronestyl )	2 grams / 250 ml D5W
Propofol	( Diprivan )	500 mg / 50 ml premixed
Propofol	( Diprivan )	200 mg / 20 ml premixed (syringe pump)
Vasopressin	( Pitressin, ADH )	100 units / 250 ml D5W
Vecuronium	( Norcuron )	10 mg / 100 ml D5W
Rocuronium	( Zemuron )	100 mg / 100 ml D5W
