

1 Beyond™ LTOMac™

Portable, Rugged Mac OS-X LTO with Pure LTFS

Industry's first OS-X based Network and Standalone LTO Archive System

1 Beyond LTOMac™ - An OS-X based system for:

- Network LTO Archive appliance
- Direct attach to Mac or PC to move data to LTO
- Field standalone use to off-load camera memory
- Studio standalone to preserve data from backup disks to safe LTO
- Off-load - preserve X-SAN or other costly storage
- Keep track of assets and Metadata with Media Asset Management MAM software, several to choose from depending on requirements and budget.

The LTOMac comes in a compact self-contained rugged field proven purpose-built chassis for On-Set or Studio use, also available in a Rackmount version.

The LTOMac can be controlled by a local LCD screen and keyboard, over the network or with a smart tablet e.g. iPad. For database / server, data archive and MAM applications there is an optional internal 4TB hard drive. Now run your favorite OS-X software applications in the studio, on-set or both.

1 Beyond LTOMac Features and Options:

- Totally Self-contained system including a high performance Mac system running OS-X
- Replaces 16 Wires, 4 External Boxes, 2 Control Cards, 4 Power Cables, 4 Power Bricks + Strip
 - See the Diagram Explanation on the 1 Beyond web site
- Available with a 4TB Database disk and several MAM software suites
- Rugged Portable all-metal case with convenient handle
- External ports: 1 Gigabit, Thunderbolt, 4 USB 3.0, 4 eSATA 6Gb, HDMI, WiFi (with iPad interface), Blue Tooth, Audio In / Out and Optional Firewire 800
- Completely turnkey. Plug the system in, push start and it is ready to use
- Custom Storm case for local travel, shipping and air travel.
- Self contained storage consists of a solid state system drive and optional 4TB Database disk
- Built-in LTO-6 drive for 2.5TBs of reliable, long-term archive data storage
- Available in Rackmount version
