### Greetings,

1 Beyond has just returned from our most successful NAB ever. Thanks to all of you who visited our booth and to those who have already expressed interest or placed orders for some of our latest products. Almost every system was sold off the floor!

We are particularly honored that our **1 Beyond Wrangler (tm) LTO-5 NetDrive (tm)** was selected as a winner of the Digital Video 2012 Black Diamond Award. See this expanding product line in our [new product videos](#), along with a number of other products. Take a look at our exciting new Tablet/iPad (and Smart phone) interfaces monitoring and controlling all our DDR recorders and NetDrive product line remotely via WiFi. This not only make the systems convenient to operate, but also greatly reduces the cost to you.

If you didn't make it to NAB, feel free to give us a call to learn more about the featured products and more about our line of 2D and 3D digital workflow solutions.

Best regards,  
Terry Cullen  
CEO and Founder

### Award-Winning 1 Beyond Wrangler LTO-5 NetDrive Product Line

The expanded [1 Beyond LTO-5 Archive Product Line](#) is perfect for On Set and Post for digital media to be shared and archived. Note that all 1 Beyond LTO-5 products include genuine IBM drives and portable models are available with AC or DC power. The latest products

include:

- **NEW LTO-5 NetDrive Easy** - New software and redesigned cost-effective rugged case, cuts the price almost in half! Turnkey appliance - connect to your network and everyone has access. Never has archiving and sharing LTO-5 been easier.
- **NEW LTO-5 NetDrive RED** - First ruggedized all-in-one mini-system for REDMAG - LTO-5 - external drive off-load, review, audio sync and more using RED Cine-X and universal LTO/LTFS format.
- **NEW LTO-5 NetDrive Pro** - Larger unit with many more I/O options. All functions above plus multiple Alexa/Sony SxS, REDMAG, P2, CF, SD and other card readers built-in for auto off-load to 1 or 2 LTO-5s, using our exclusive Wrangler(tm) software, and a high performance disk array. Comes turnkey with appropriate playback and grading software e.g. RED Cine-X and optional transcoding and edit capabilities. Can be controlled with a tablet or monitor and keyboard.
- **ENHANCED Wrangler FlexVTR** - Now record 4 streams of video simultaneously and archive to LTO-5 tape - perfect for efficiently migrating your analog video tape library to a digital, file-based LTO-5 archive using the new LTFS file system on the tapes.
