

NAB 2013 Wrap-Up

Greetings:

1 Beyond has just returned from our most successful NAB show ever. Thanks to all of you who visited our booth and to those who have already expressed interest or placed orders for some of our latest products.

Feel free to give us a call to learn more about the featured products and more about our new Mac OS X Product line.

Best regards,

Terry Cullen, CEO and Founder

1 Beyond Booth SL07423 at NAB Show 2013

For Archiving - MAM

We demonstrated our portable solutions including **1 Beyond NetDrive** and **1 Beyond LTOMac**, "PURE LTFS" LTO 5-6 archive solutions which include Asset Management solutions from axle Video, StorageDNA, Imagine Products, YoYotta or Squarebox. We also demonstrated the new Rackmount 1 Beyond NetDrive Pro with two LTO drives and multi card readers.

The new **1 Beyond QuadArchiver™** was a big hit! A 4-input recorder designed for the organization that has hundreds or even thousands of Legacy Tapes or Disks to archive, the QuadArchiver digitizes footage to LTO-6 tape and provides asset management software for tagging and later searching.

1 Beyond QuadArchiver

Since it records 4 high quality archive formats, 4 proxies and stores to LTO tape simultaneously, it cuts archive time by as much as 7-8 times.

- One operator can easily control several decks simultaneously and independently.
- Simultaneous Proxy recording. Each Video and Proxy format is independent.
- Jog Shuttle or Intuitive VTR controls can position the tape, mark In and Out points.
- Display area for input video with VCR controls under each video monitor.
- Record time codes are displayed along with a record progress bars.

New Mac OS X-Based Products

1 Beyond ThunderTape™ 4TB

In a single package with an external tape drive, 4TB hard drive and optional memory reader (e.g. for REDMAG), you connect to your Mac via Thunderbolt.

ThunderTape

1 Beyond LTOMac™-axle

An archive appliance for your facility, complete hardware, software and database including 5 seats for \$9,995.

Running the latest browser-based asset management software (from axle Video) this appliance gives your work group access to LTO

backup, automatic proxies and metadata database asset management over LAN or Internet. This turnkey appliance makes "radically simple" even simpler. One LAN plug and your MAM is up and running.

LTOMac-axe

1 Beyond MacWrangler™ Dude

MacWrangler Dude

Our popular 1 Beyond Wrangler Dude now runs the Mac OS. This unit is powered by AC, DC or will switch in case of power failure and removable drives for an all-in-one back up solution. Top films and TV shows like NCIS are using the Wrangler Dude for its portable form-factor and functionality, now also running on Mac OS X.

1 Beyond MacWrangler™ Pro

With even more capabilities than the MacWrangler Dude, the rugged MacWrangler Pro has built-in 17" screen + keyboard + option for LTO. It is the ultimate on-set backup solution if your preference is the Mac OS.

MacWrangler Pro

For Streaming and Event Recording

StreamMachine

1 Beyond StreamMachine™ & StreamMachine™ Pro

We demonstrated our **1 Beyond StreamMachine** and the **1 Beyond StreamMachine Pro** integrating software and hardware from Telestream and Matrox.

Telestream had both StreamMachine systems running Wirecast software in their booth at NAB.

Industry's Largest DDR Events Recorder at NASA

We also demonstrated our unique Event DDR software and SyncRecord control used in our installation at NASA.

For On-Set Production

1 Beyond NetDrive™ Pro

We featured our new 3U 1 Beyond NetDrive Pro for backup from any media cards or disks to dual LTO drives, internal Raid array and an external eSATA disk, simultaneously.

New 3U NetDrive Pro

1 Beyond SuperWrangler™

SuperWrangler

We also showed our 1 Beyond SuperWrangler with ASSIMILATE SCRATCH, Blackmagic Design DaVinci Resolve, MTI Cortex, or Quantel Pablo. We can advise which is best for you. ASSIMILATE demoed a 1 Beyond SuperWrangler running SCRATCH this year at NAB.

1 Beyond Partners at NAB included:

- ASSIMILATE demoed a [**1 Beyond SuperWrangler**](#) running SCRATCH.
- StorageDNA demoed a [**1 Beyond LTOMac**](#).
- Imagine Products had a [**1 Beyond LTOMac**](#) with PreRollPost.
- YoYotta demoed a [**1 Beyond LTOMac**](#) running YoYottaID.
- MSE Media Solutions had a [**1 Beyond FlexVTR**](#) and [**LTO-5 NetDrive**](#).
- Empress Media Asset Management demoed our [**LTO-5 NetDrive**](#).
- Telestream demoed a [**1 Beyond StreamMachine**](#) and [**StreamMachine Pro**](#) running Wirecast software.
