Greetings,

This summer and fall has been very busy at 1 Beyond, with more leading edge innovations. Here's a brief update.

This week, we are at Content and Communications World (CCW) in New York announcing our new **1 Beyond Wrangler StreamMachine**, the industry's smallest portable quad direct-to-disk recorder and TV studio, together with Matrox and Telestream.

Earlier this summer, 1 Beyond attended the IBC show in Amsterdam participating in several booths showing new capabilities with our partners.

- With Sony, the portable **1 Beyond Super Wrangler** (32 processors) was shown running ASSIMILATE Scratch processing F65 footage in real time.
- With P+S Technik, a battery-operated, 12-processor **1 Beyond Wrangler Super Dude** was recording and de-bayering raw footage from their new high speed F35 camera in real time.
- With ASSIMILATE, auto-offload and verify to LTO-5 tape with the new auto-transcode option was demonstrated on the Award-Winning **1 Beyond Wrangler LTO-5 NetDrive RED**.

Give us a call if you would like to learn more and read below for more details.

Best regards.

Terry Cullen, CEO and Founder

Announcing 1 Beyond Wrangler StreamMachine

At the CCW show, 1 Beyond is demonstrating for the first time the **1 Beyond Wrangler StreamMachine**(tm), the industry's smallest, most portable live-switched streaming

TV Studio and quad direct-to-disk recorder for HD-SDI Cameras. 1 Beyond has brought to bear the experience of designing and delivering the industry's largest DDR Event Recorder to NASA, plus the experience of building small, portable, on-set systems.

To accomplish this industry breakthrough, the **1 Beyond Wrangler StreamMachine** incorporates the Matrox VS4 quad HD-SDI card and Telestream Wirecast software with the award-winning, powerful and field-proven **1 Beyond Wrangler** systems and software. The results set a new bar for the Streaming Industry. Features include:

- Full Function, Powerful, Simple to Use:
 - Live stream, switch from 4 professional SDI and USB sources, record all original channels, plus the resulting broadcast .
 - Save the 4 original camera views, your video assets, in high resolution for future re-mix and re-purpose.
 - Don't be fooled by the size and simplicity -- all the features are there
- Light weight (10 lbs.) and small package with optional battery power.
- Freedom to monitor and control your broadcast from your console or remotely from your iPad.
- Rugged with machined aluminum, titanium and steel.
- Flexibility: A Studio Broadcast appliance but switch to Windows and run any auxiliary software.
- Value:4 Pro Camera Studio Broadcaster, 5 HD DDRs, turnkey -- complete for \$4,995! Save thousands over other available solutions ...

Other News from 1 Beyond

Here is a snapshot of the new capabilities from 1 Beyond now available and in action at customer sites.

- Seven **1 Beyond Wrangler** systems are busy in episodic productions this season, reducing necessary on-set man-power by doing camera Auto-Offload, Verify and Auto-transcodes. They are in productions at Fox, Sony Pictures, Nickelodeon, and a second season with NCIS.
- Since NAB 2012, 1 Beyond has emerged as a leader in LTO-5-based archive products for Film, TV, Corporate, Government and Educational Markets.

The product portfolio now includes capabilities for:

- On-Set to archive your source material with the **1 Beyond LTO-5 NetDrive**
- The Post-Facility to archive finished projects and footage off expensive SAN to nearline using the **1 Beyond LTO-5 NetDrive** or **1 Beyond Archive Database Server**
- An Enterprise-level Asset Database Server with LTO-5 Library option using the **1 Beyond Asset Management DataBase** with LTO-5
- Tape Library migration digitizing old video tapes to file-base and archive on LTO-5 using the **1 Beyond FlexVTR** with Asset Management
- A new mini-FlexVTR for recording DV and DV Cam tapes to LTO-5
- A new **1 Beyond NetDrive BMD** for the new Blackmagic Design Cinema Camera and a bundle including the camera and accessories

These products can work together supporting the various needs within an organization. Recently 1 Beyond has provided COMPLETE archival solutions for several customers that include all categories of products. 1

Beyond can help you design the optimal archive solution for all your digital assets. Call for more information and an end-to-end design consultation and visit the [1 Beyond website](#) for product details.
